¹ For non-pooled groups, multiple plan variations are available. Contact an Anthem Blue Cross sales representative for options and pricing.

² Generic Premium is a unique formulary that includes most prescription generic medications, **plus** typically one or two brand-name prescription drugs in a therapeutic class. Please note that certain therapeutic classes may have no brand-name drugs on the Generic Premium Formulary if several generic alternatives are available in those therapeutic classes. Also, note that members can still receive our network discounts when purchasing brand-name drugs not covered on the Generic Premium Formulary.

³ The deductible is waived for tier 1.
