

New dental maximum carry-in feature is here!

February 12, 2015

You may already be aware of the **carry-over** feature for members with our Dental Prime and Dental Complete plans. But did you know that we are one of only a handful of carriers offering a new dental **carry-in** feature? With this new feature, your clients may bring in maximum carry-over amounts from a previous dental carrier and keep balances already established.

Carry-over versus carry-in

- **Annual maximum carry-over:** allows existing members (with less than \$500 in claims a year) to carry over up to \$250 each year they qualify. They can accumulate up to \$1,000 in additional benefits. After they reach their annual maximum, members can use their extra carry-over amounts for any covered dental procedures (except orthodontia).
- **NEW annual maximum carry-in:** extends this feature to groups that move to one of our plans with a rollover/carry-over feature from another carrier. This feature lets members carry-in up to \$1,000 of their unused annual maximum benefits to Dental Prime and Dental Complete.

Who does this apply to?

- New Large Groups and National Accounts in all states
- Groups moving from Dental Blue to Dental Prime or Dental Complete (Large Group and National Accounts in all states)
- Groups with 100 eligible contracts or more

Groups must have our carry-over feature to be eligible for the new carry-in benefit. The dental maximum carry-in feature is a one-time event. No changes can be made once the process is submitted.

If you have any questions about the dental carry-over or carry-in features, contact your sales representative.

This article applies to:

- Wisconsin, Ohio, Missouri, Kentucky, Indiana, and Georgia
- Large Group
