

Some Individual ACA members will receive a discontinuation notice

September 17, 2018

Anthem will continue providing Individual plans, on and off-exchange, in select counties in 2019, offering Missouri consumers access to the Anthem coverage that they know and trust. In 2019, we will add Boone County to our service area and discontinue coverage in these counties:

- Barton
- Cedar
- Dade
- Dallas
- Douglas
- Hickory
- Laclede
- McDonald
- Ozark
- Polk
- Stone
- Taney
- Webster
- Wright

Check out our [2019 county coverage map](#) for a complete look at where we're offering Individual plans in 2019.

While Individual medical plans will not be offered in certain markets in 2019, we will direct members on these plans to the Marketplace (the exchange) to explore other options.

Soon, we will send a [discontinuation notice](#) to Individual on and off-exchange members who are currently on a plan that will not be offered in 2019. This notice will tell members that their current medical coverage will end December 31, 2018, and that they will have to shop for a new plan on or off the Marketplace. These members will need to enroll before December 15, 2018, to avoid a break in coverage.

Note: This discontinuation only impacts medical coverage. Members who have dental and/or vision benefits with Anthem will receive information about their dental/vision renewal in October.
